

January 2012 News Articles

Thank You:

We proved our service this year when we attended a call on Christmas day and at all times we aim to be with you same day should you need us.

Thanks again to all our regulars who have helped us to become so successful.

New Company Vehicle:

We're now very proud to announce our new vehicle is four wheel drive complete with snow tyres, in the unlikely event of snow we should be able to get to you wherever you are and whatever the weather.

Charity Event – Grow a moustache in November:

Our charity work continues with the event of Movember, this being the month of November when men grow a moustache to raise money for **Prostate cancer and Testicular cancer**. I am pleased to announce I raised £320 on my own account and a team of 6 of us raised a total of £1310.

Sadly a close friend whom many would know has died, **Colin Rodway**. Colin used to own the hardware store in Malvern Link then went on to open his business in Ledbury and I plan to run another half marathon in his memory in June. The illness he had is called **Amyloidosis** and we will help to make this rare illness more known to the country. If you would like to help please send payments to The UCL **Amyloidosis** research fund via our office.

Business Update:

The business is now entering its 8th year and our thanks to you all for your continued support. As the business has grown I now have 2 reliable workers to assist me should it be necessary. These chaps help deal with the plumbing and the emergencies should they arise.

We have now also launched BK Gold, a new service to take away all your boiler worries, read our exclusive article for more information.

Boiler Update:

Over the past 7 years we have chosen to select **Glow Worm** boilers as our preferred choice. This has proven very useful as we have been trained by Glow Worm and have an in- depth knowledge of the product. As well as being very reliable the boiler comes with a 5 year warranty, not that we anticipate you will need it. I am pleased to say that none of the boilers I have installed have broken down and the backup service which has only been used twice in this time was next day.
